

Career building skills in Sciences

For Doctoral Students at the Department of Sciences

11-14-18 June 2024 | 9:30-12:45 a.m.

Dipartimento di Scienze, Lungotevere Dante 376 - Aula D.

Three workshop-based seminars, entirely held in English, aiming at increasing personal effectiveness across the Post-Doctoral Career transition stage, reviewing and focusing on areas of career interests, and developing and implementing tailored strategies.

An initiative coordinated by **Prof. Paolo Ballato** and conducted by **Dr. Katerina Anagnostopoulos** (Psychologist, Careers Advisor and Trainer), has been designed to enhance the capacity to identify and pursue post-doctoral career paths both in Academia or outside of Academia.

Main topics: self-assessment of transversal and transferable skills | CV updating and tailoring | identification of career paths of interest | strategies for finding and developing opportunities | networking | filing applications, interviewing, sustainability of choices decision making | self-presentation and interviewing in English.

Registration: by e-mail to Katerina Anagnostopoulos at eka.anagnostopoulos@stud.uniroma3.it stating: area and year of Doctorate Course, topic of research, and attaching an updated CV. **Registration deadline: 31st May 2024**

The earlier you start building your career, the better!
